

AKSHARA

B.Tech CDS Student | Aspiring Web Developer | Exploring Artificial Intelligence

Email: akkiaksharaudutha@gmail.com | GitHub: github.com/akshara-29

PROFESSIONAL SUMMARY

Motivated and curious B.Tech CDS student with a strong interest in web development, data structures and algorithms, and artificial intelligence. Building practical projects using HTML, CSS, JavaScript, Python, and related development tools. Eager to learn, solve problems, and contribute to real-world technology projects.

EDUCATION

B.Tech — Computer Science and Data Science (CDS)

Sai University | Expected Graduation: 2029

TECHNICAL SKILLS

Programming:	Python, Java, C, JavaScript
Web Technologies:	HTML, CSS, JavaScript
Core Concepts:	Data Structures, Algorithms, Problem Solving
Tools:	Git, GitHub, Visual Studio Code, Power BI
Areas of Interest:	Web Development, Artificial Intelligence, Data Science, Interactive Applications

SELECTED PROJECTS

Water Tracker — Web Application

- Designed a simple application concept to help users track daily water intake and support better hydration habits.
- Focused on creating a clear and interactive user experience for recording daily progress.

Student Dashboard — Web Development Project

- Developed a student-focused dashboard concept for organizing academic information, tasks, and learning resources.
- Applied frontend development skills to structure and present information in an accessible interface.

AI Explorer — Academic Project

- Explored artificial intelligence and machine learning concepts and their potential applications to real-world problems.

RELEVANT LEARNING

Data Structures & Algorithms • Web Development • Artificial Intelligence • Database Systems • Programming Fundamentals

STRENGTHS

Curiosity • Problem Solving • Fast Learning • Adaptability • Teamwork • Continuous Learning
